By E Virgil Neal

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Modern Illustrative Bookkeeping: Introductory Course This book is designed to teach bookkeeping as it is practiced by progressive business houses. No time is wasted on unnecessary theorizing. The student is given actual bookkeeping work to do from the very outset, and is made to feel at all times that his work is similar in reality and importance to that which is done in the business office. Special attention is called to the teaching plan of the book, which embraces the presentation of one principle at a time, an explanation of the principle, followed by a script illustration, and the employment of the principle in such a way that it may be mastered easily and quickly. Thus the student is grounded thoroughly in the principles, and is given ample practice in bookkeeping at every stage of the work. In the preparation of the transactions which form the basis of the student's work, great care was taken to grade them properly and to make them conform to modern business customs. Only the necessary technical expressions are...
